TimeSync

One verified timeline across every device.

Why TimeSync Matters

When devices fall out of sync, investigations take longer, compliance is at risk, and critical moments can be missed.

TimeSync automatically synchronizes every device and timezone, continuously.

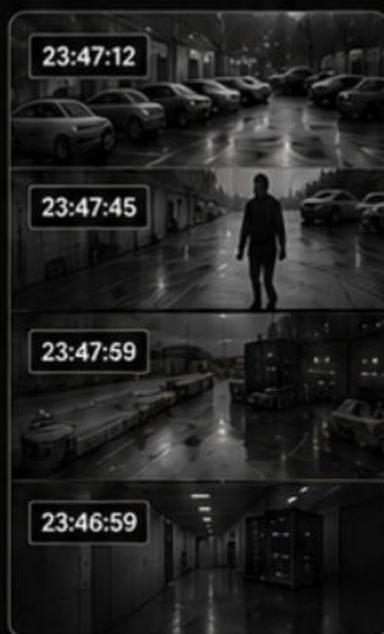

The Difference Accurate Time Makes

Before TimeSync

Out of sync. Out of control.

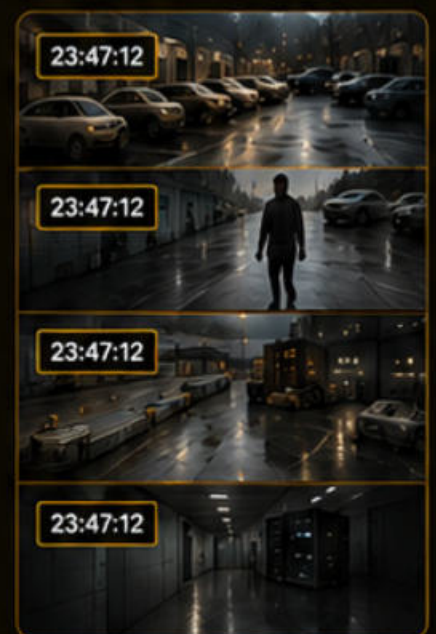

- ✗ Inconsistent timestamps
- ✗ Manual timezone setup
- ✗ Time drift, missed events
- ✗ Slower investigations
- ✗ Higher compliance risks

After TimeSync

In sync. In control. In confidence.

- ✓ 100% synchronized timestamps
- ✓ Automatic timezone management
- ✓ Zero time drift, always accurate
- ✓ Faster investigations
- ✓ Stronger compliance and peace of mind

One source of time.
One version of the truth.

Business Impact That Matters

TimeSync delivers measurable results that strengthen your operations.

100%

Device
Synchronization

Every device.
Every time.

80%

Faster
Investigations

Find critical events
faster.

200+

Additional
Sites

Monitor more sites
with the same team.

€10k–€100k

Annual
Savings

Lower risk.
Lower costs.

Core Capabilities

Auto Device
Sync

Keeps devices
accurate.

Auto Timezone
Management

Right timezone.
No manual work.

Trusted,
Defensible
Evidence

Accurate and
legally valid.

Seamless
Sync at Scale

Scale across sites
and devices.

Zero Drift.
Always
Accurate.

Eliminate drift.
Maintain accuracy.

How TimeSync Works

TimeSync automatically synchronizes every device and timezone, continuously. Zero drift. Always accurate.

01

Connect Devices

Connect time-sensitive devices to GCXONE.

02

Detect Devices

TimeSync detects devices and reads their time.

03

Push Correct Time

TimeSync pushes the correct time from GCXONE time server.

04

Apply Timezone

The correct timezone is applied automatically.

05

Continuous Sync

TimeSync monitors and resynchronizes to prevent any drift.

06

Zero Drift Maintained

Every device stays in sync, every second, every day.

Real-World Use Cases

TimeSync keeps every device accurately synchronized, so you can act with confidence in any situation.

One Accurate Time. Every Situation.

Security Investigations

Accurate timestamps help reconstruct events and reveal the truth.

Compliance Audits

Maintain accurate, defensible timestamps for audits and compliance.

Power Outage Recovery

Automatically restore and resync all devices after power outages.

Multi-Timezone Operations

Manage timezones across regions for smooth operations and reporting.

Accurate Time. Better Decisions. Stronger Outcomes.

TimeSync ensures every timestamp is accurate, so every decision you make is backed by the truth.

Accurate Time Built for Enterprise Trust.

TimeSync is built to meet enterprise standards for reliability, compliance, and legal defensibility.

Supported Devices

HIKVISION

alhua
TECHNOLOGY

Limited Device Support

Manual timezone setup is available for unsupported devices.

Legally Defensible Timestamps

Accurate, consistent timestamps you can trust in audits and investigations.

Enterprise-Grade Reliability

24/7 time accuracy with high availability and fault tolerance.

Compliance Ready

Meets regulatory requirements across industries and regions.

Audit-Ready Reports

Complete logs and reports for transparency and accountability.
