NXGEN Technology AG

TowerGuard

Centralized monitoring platform
for mobile tower infrastructure.

Full visibility across every tower
from one platform.

POWER
Normal

CONNECTIVITY
Strong

STORAGE
Healthy

DEVICE HEALTH
Good

**HARDWARE
AGNOSTIC**

Works across multiple
brands and device types.

**CLOUD
POWERED**

Real-time monitoring from
anywhere, anytime.

SCALABLE

Scale across clients, sites,
geographies, and towers.

MULTI-TENANT

One platform for multiple
teams and organizations.

How TowerGuard Works

TowerGuard collects real-time data from connected devices at every tower site, tracking power, connectivity, storage, and device health.

Fleet Dashboard

Complete fleet visibility in real-time.

Alarm Management

Reduce false alarms and manage activity.

AI Video Monitoring

Detect real threats faster with AI-powered analysis.

System Health & IoT

Monitor device health and integrate external IoT devices.

Tower Deployment Made Simple

Configure, manage, and scale all your towers from a single, centralized interface.

Everything You Need to Deploy and Manage Towers

Create

Add new towers in seconds.

Edit

Update tower details with ease.

Move

Relocate towers seamlessly.

Delete

Remove towers instantly.

Tower Templates

Use templates for faster setup.

Device Assignment

Assign devices in just a few clicks.

Customer & Site

Organize by customers and sites.

Plug-and-Play Deployment

Deploy with zero complexity.

Five Tower Types. One Solution

TowerGuard supports five tower types to fit different deployment scenarios.

1

Fixed Surveillance Towers

Critical infrastructure towers

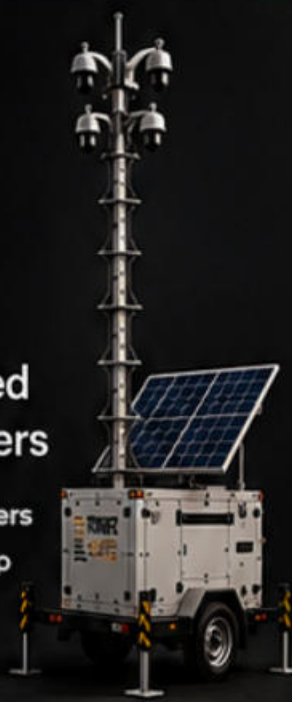

Best for: Long-term, high-security locations requiring 24/7 monitoring and data retention.

2

Solar-Powered (Hybrid) Towers

Solar-powered towers with battery backup

Best for: Remote or off-grid locations where continuous power supply is unavailable.

3

Mobile Towers

Mobile towers for rapid deployment

Best for: Construction sites, events, law enforcement, and temporary monitoring.

4

Smart Cloud Tower

Smart surveillance with IoT and cloud management

Best for: Enterprises seeking real-time oversight across multiple sites or regions.

5

Autonomous AI Tower

AI-powered towers for automated surveillance

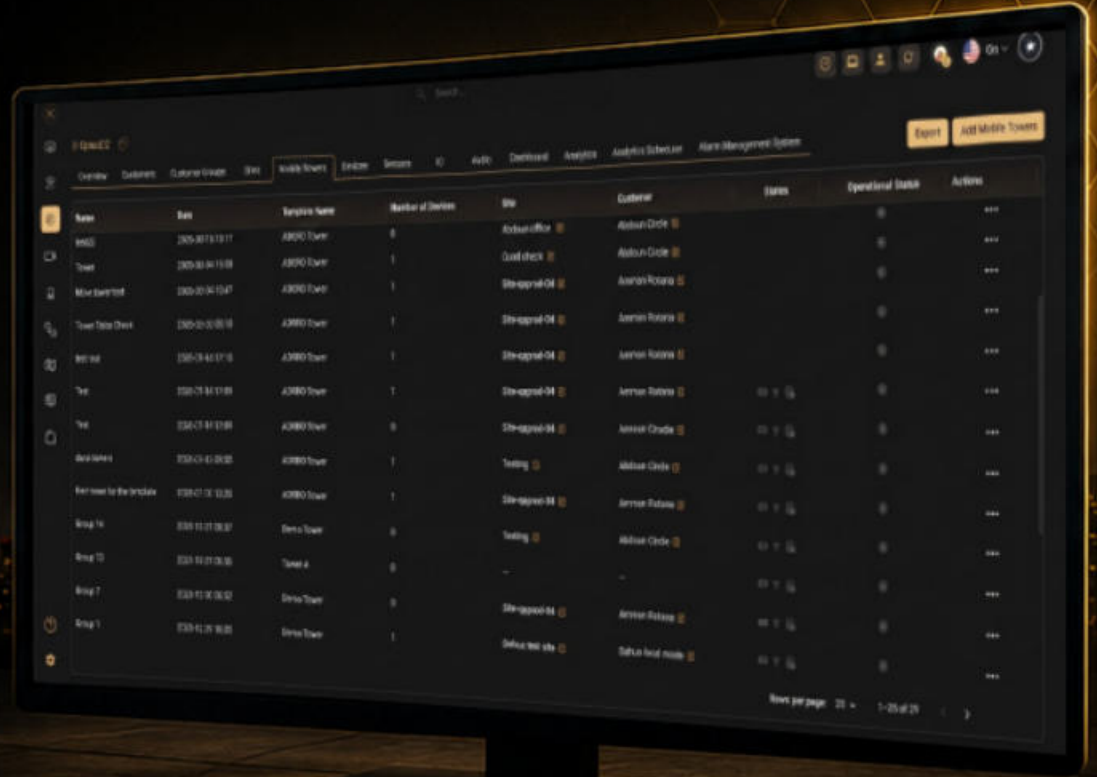

Best for: Critical infrastructure, defense, border control, and smart city environments.

Why TowerGuard

One platform to monitor, manage, and protect every tower. Anywhere. Anytime.

WHAT MAKES TOWERGUARD DIFFERENT

- ✓ Hardware agnostic and future-ready
- ✓ Real-time health monitoring and AI-powered analytics
- ✓ Automated alerts and remote troubleshooting
- ✓ Scalable architecture for any fleet size
- ✓ Built for security, reliability, and uptime

REAL-WORLD IMPACT

REMOTE TOWER MONITORING

Continuous visibility into tower health and performance.

FLEET MANAGEMENT

Manage all towers and assets from a single interface.

PROACTIVE ISSUE DETECTION

Detect problems early and prevent downtime.

INSTALLER BENEFITS

Simplified setup, remote access, and faster deployments.
