Legal disclaimer

This guide and its contents (the "Guide") are provided by NXGEN. All rights to the Guide and to the intellectual property embodied in it — including, without limitation, trademarks, trade names, logos and similar marks appearing in or on it — are protected by law. All right, title and interest in the Guide and in any related intellectual property rights belong to and remain with NXGEN and its licensors.

The Guide is provided free of charge, "as is" and for informational purposes only, without warranty of any kind. It is neither intended nor suitable to establish any legal relationship between the reader and NXGEN or its affiliates, including, without limitation, any obligation of NXGEN or its affiliates toward the reader.

The obligations of NXGEN and its affiliates in respect of NXGEN products or services purchased by a customer are governed exclusively by the terms of the agreement under which those products or services were purchased.

For clarification

The reader bears the entire risk as to the use, results and performance of the Guide. To the fullest extent permitted by applicable law, NXGEN disclaims and excludes all warranties, whether statutory, express or implied — including, without limitation, implied warranties of merchantability, fitness for a particular purpose, title and non-infringement of third-party rights — as well as any liability or warranty arising from suggestions, specifications or samples related to the Guide.

Accept Your Invitation as an Operator

Updated 23 September 2026

When a Super Admin invites you to GC Surge, you receive an email to activate your account. Follow these steps to set your password, complete onboarding, and reach the Alarm Center — your main workspace as an Operator. Covers: Set Your Password, Complete Onboarding, Your First View in Alarm Center.

Step 1 — Set your password

1. Check your inbox for an email from noreply@nxgen.io (NXGEN Technology AG.) with the subject “You’ve been invited to GC Surge” .
2. Open the email and click [Set Password & Verify Email](#) . This opens the password setup page.
3. On the [Reset your password](#) page, enter your new password in the [Password](#) field and again in [Retype password](#) . Your password must meet all five criteria shown below the field:
 - 8+ characters-
 - Uppercase letter (A–Z)
 - Lowercase letter (a–z)
 - Symbol (e.g. !@#\$\$%^&*)
 - Number (0–9)
4. Click [Reset Password](#) .
5. After clicking [Reset Password](#), you are redirected directly to the Account Setup Wizard — no separate sign-in or confirmation screen appears.

Step 2 — Complete onboarding

The first time you sign in, a 3-step setup wizard guides you through account activation.

1. **Welcome** A summary of your Operator role is shown, including the four things you will do in GC Surge: access assigned sites and camera feeds, respond to alarms in real time, track performance and streaks, and coordinate with your team. Choose your preferred language, then click **Get started** .
2. **Your profile** Confirm your display name — this is how teammates will see you in the app. Optionally add a photo, or keep the initials avatar. Click **Continue** .

3. Your sites Review the locations you will be monitoring, then click Continue .
4. All set A confirmation screen shows that your profile is saved, your sites are linked to your shift, and alerts are routed to your queue. Click Enter Surge .

Your First View in GC Surge

After onboarding you land on the Alarm Center . Click **Start Shift** in the top-right corner to go on duty.

The **QUEUED SITES ASSIGNED TO YOU** panel lists sites linked to your shift. Sites with open alarms appear in the **Sites Unassigned to Operators** table — click **Assign to me** in the **Actions** column to claim the site and open ZenMode. For the full shift workflow — including how to pick up new sites from the unattended queue — see [New Operator Quick Start](#).

For future logins, go to the GC Surge login page, enter your email address and password, and click Sign In.
