experience — not included in the PDF

Confirm the email address on your GC Surge account. Right after you create your account, GC Surge sends a verification email to that address and shows a Check your email screen. You must confirm your email before you can enter the platform, and verifying also unlocks scheduled reports and notifications.

Before you begin

- Check your inbox — and spam folder — for an email from NXGEN Technology AG. titled "Verify your email address" .
- The email may arrive within a few minutes of your account being created.
